Competition Rules

Scorecards must be picked up fifteen minutes prior to your shooting time. There will be two official practice ends. Archers may shoot as many as six arrows per practice end. Official scoring will consist of twenty ends of three arrows each. Archers shooting the bottom targets must shoot first; shooting position and order of shooting will be switched after ten ends of scoring. All arrows must be scored before any arrows are withdrawn within your shooting group. On a single spot face, if an archer shoots more than three arrows during an end, the three arrows with the lowest values will be scored; on a multi-spot face, if an archer shoots more than three arrows during an end, the three arrows with the lowest values will be scored, but no more than one arrow per face may be scored. Archers may neither give nor receive coaching while on the shooting line. Archers must step off the shooting line to receive coaching. Coaches must remain behind the shooting line at all times. Three signatures are required on each scorecard. PLEASE CHECK ALL MATH AND SCORES on your scorecard. Once scorecards have been turned in to tournament officials, the scores are final.
